Model Volum 22

The *Volum* collection is the re-interpretation of a lighting archetype from the point of view of an international design and architecture studio. It is a product that offers the same level of functionality and aesthetics from every point in the space and, at the same time, celebrates the art of glassmaking. Designed to fill a space with a 360-degree illumination, *Volum* glows uniformly in all directions providing a calming and coherent radiance.
