

## Voa Tytleri Large

REFERENCE AP1517/1

### DESCRIPTION

Inspired by Portuguese soul and a dramatic game of shadows and light. This marvellous species of swallows known as "Hirundo Rustica" presents spectacular ballets where they paint the skies like ballerinas. Their funnel-shaped bodies are also a Portuguese icon, which translates our soul in movements and shapes. The unfindable configurations that they perform allow this singular collection to create beautiful visual compositions. Either in suspension or standing on the walls, they create a dramatic game of shadows and light. Also, they can stay aligned, side by side, in an extreme organic and sharp textured tree branch creating extraordinary contrasts with the smooth and fluid shapes of their bodies. Ideal for any orientation composition, creating games of shadows and light for classic and contemporary interiors. Perfect for hospitality projects.
