## HIDDEN LIGHT COLLECTION

**DESIGNER:** Jan Plecháč & Henry Wielgus

**YEAR OF DESIGN:** 2019

**MATERIAL:** Hand Blown Bohemian Crystal Glass

When designing Hidden Light, Jan Plecháč and Henry Wielgus explored the question of what constitutes an inner spark? What principles are universal to the whole world regardless of society or culture? It is our inner energy that can set us free, a lantern that guides us to freedom.

To create the reticulated surface, the glass must be blown into a special metal cage. It is difficult to create a perfect metal form, but once it is made, it can last for (almost) eternity. This design is a challenge for glassblowers also in terms of its size. It is so heavy that the blower must make five trips to pick up enough glass to finally blow the object.
